BIG RIGS

Our larger format PA systems are capable of outdoor performances, catering up to 10,000 people at family festival levels. We can easily create packages to suit your requirements for crowd coverage or on stage requirements – without compromising the result for either performers or your paying customers.

PACKAGES	PER DAY
SYSTEM ONE Wide coverage, small footprint line array – coverage up to 500 people outdoors. Includes digital console & rack, amps and processing.	Ground stacked \$800
SYSTEM TWO Same rig with added matching elements to double the system. Includes extra subs/amps and fly towers to create coverage for up to 1,500 people outdoors.	Flown \$2,000
SYSTEM THREE 4 element per side TLA312 line array, 2 x groundswell sub woofers per side includes digital console as above. coverage up to 2,000 people outdoors. can be ground stacked or flown.	Ground stacked \$2,500 Flown \$3,400
SYSTEM FOUR 8 element per side TLA312 line array, double subs to above. This system must be flown, coverage up to 5,000 people outdoors.	Flown \$5,500
STAGE MONITOR PACK ONE 4 sends of quality wedges, run from either FOH console or side of stage includes stage mic pack to cover artist requirements (DI's/stands/cables too)	from FOH \$400 from Side Stage \$700 <i>req extra tech not quoted</i>
STAGE MONITOR PACK TWO up to 8 sends of quality wedges, run from either FOH console or side of stage. includes mics etc as above	from FOH \$700 from Side Stage \$1,100 <i>req extra tech not quoted</i>
DELAY SYSTEM ENHANCEMENTS These are only added in conjunction with required coverage and venue logistics, if required to create a result. We will work with you to ensure best practice is achieved. Extra crew time will need to be added for all of these.	extra cover examples 400pax cover \$300 1000pax cover \$800 5000pax cover \$4,500
